REASONS FOR ALLOWANCE

1. The following is an examiner's statement of reasons for allowance:

Upon further review of the instant claims and the prior art of record as a whole, the examiner agrees with applicant that it is not an inherent certainty that the silica disclosed in Uemura et al (EP 514,760) and Glenn, Jr. et al (WO 96/28140 and U.S. Patent No. 6,277,797) is hydrophobic, since silica needs to be chemically modified to become hydrophobic. Therefore, for the reasons set forth in Applicant's Appeal Brief (dated May 21, 2004), the examiner asserts that Uemura et al (EP 514,760) and Glenn, Jr. et al (WO 96/28140 and U.S. Patent No. 6,277,797) do not teach or suggest in general a cleansing composition containing a hydrophobic silica in combination with at least one foaming surfactant and at least one oxyalkylenated thickening agent, as required by applicant in the instant claims.

Accordingly, the claims viewed as a whole would not have been obvious to one of ordinary skill in the art at the time of the invention after viewing the prior art of record.

2. Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."
